> Secretary Tracy Believes the Story to be Without Foundation.

The Chilean Fleet Said to be Prepar ing to Open the Ball.

dmiral Walker May Have to Fight a the Straits of Magellan-The Situation Hourly Becoming More Threatening.

By Telegraph to The Times.

WASHINGTON, Jan. 18.—[By the Assoclated Press.] A rumor was in circulation here tonight that the Yorktown had been fired upon in the harbor of Valparaiso by the Chileans. It caused great excitement for a while, and frequent calls were made on the Associated Press to ascertain if there were any truth in it.

When the story was reported to Secretary Tracy he treated it very lightly. He added that he had no news to com municate to the press tonight.

ANOHER STARTLING REPORT.

Chile Will Open the Built by Attacking Admiral Walker's Fleet.

NEW YORK, Jan. 18.—|By the Assosociated Press.] A Washington dispatch printed here states that Capt. has reported to the departmen that four of the best cruisers of the Chilean navy will leave Valparaiso January 20 for the Straits of Magellan with a torpedo boat besides.

From another officer comes the additional information that the captain of one of the English ships of war in those waters said that a Chilean commander had informed him that the fleet was going on a special mission. "You may be astonished before long" he said. This news is interpreted to mean that Admiral Walker's fleet may be halted there and directed to turn back or risk field. there and directed to turn back or risk a fight. This is the most serious indication of Chile's hostile intention which the Navy Department has received. Naval officers says it can only mean one thing, which is that Chile intends opening the ball herself. The vessels to go are said to be the Esmeralda, Almirante Cochrane, Pinto, a new unarmed criticar whose sailing rate is nineteen. rante Cochrane, Pinto, a new unarmed cruiser whose sailing rate is nineteen knots, and the Condell, the torpedo boat that blew up the Blanco Encalada. make ready for it.

For the first time there is real alarm here at the threatened danger to Admiral Walker. His squadron is not equipped with torpedoes and the Chicago might be blown up in spite of the utmost vigilance. It would be a daring and plucky attempt, but so was the successful attempt on the Blanco En-

calada. Capt. Evans also informed the depart. ment that he is taking the most extreme precautions on account of what he has been told for the safety of the York-town. He does not intend to be blown FOR SALE—A PAIR OF WELL

He ran out and found a mob attacking a Baltimore sailor. The man tried to en-ter the gate of the intendencia, but was repulsed by sentries, who crossed their muskets and barred his way. The heavy stone struck the sailor on the shoulder, knocking the man stiff. It was the most cruel thing I ever saw. The lady with me fainted at the sight. The police came up and carried the senseless body away.

ORDERS TO EVANS. He Will Take the Legation Refugees t

Callao, Peru.
Washington, Jan. 18.—[By the Ass ciated Press.] The Navy Department today was still a scene of great activy. Secretary Tracy bad frequent con outward signs denote that a great deal of work was being done. The greatest activity prevails in the Bureau of Navy Intelligence, the agents of which are Intelligence, the agents of which are said to have been at work on a possible campaigns besides collecting all imaginable information from abroad. Through this bureau the Secretary has kept himself thoroughly informed of the movements of agents of Chile who, it is rumored, for some time have been ransacking Europe for war material. The comprehensive operations now conducted by the department are largely for the purpose of ascertaining just what the naval system can accomplish in the event of hosti ities.

Secretary Tracy this afternoon cabled to Commander Evans, of the Yorktown, at Valparaiso, instructing him to take the Balmacedist refugees now under his protection to Callao and land them

there, but to use his discretion as to the time of his departure. The departure of the Yorktown would leave the United States without a single-naval vssel in Chilean waters. the Boston being at Callao. The Yorktown could hardly make the trip and return in less than a week. As Capt. Evans is vested with full discretion it is not regarded as likely that he will leave Valparaiso until he is relieved by another vessel or is thoroughly satisfied that the condition of affairs in Chile instifies him in tion of affairs in Chile justifies him in leaving the United States Minister without means of getting out of that country in the event that circumstances try in the event that circumstances made it desirable or necessary to do so. Therefore it is regarded as probable that the Boston will be sent to Valparaiso, although at the Navy Department it is asserted that no orders bearing on this subject have been sent.

The President today denied himself to all visitors and worked on the Chilana correspondence. He is preparing

to all visitors and worked on the Chilean correspondence. He is preparing his message to Congress. It is still the belief that the message and correspondence will be sent to Congress on Wednesslay. The Secretary of State is unable to leave his house today because of an attack similar to that of a week ago, which he recovered from lately. A rumor is circulated to the effect that the Chilean Minister has notified this government that an apology from Chile will be forthcoming. This could not be confirmed.

says:

Advices received here by officials of one of the leading steamship companies doing business with South America say that three of Chile's largest ships sailed for the straits on Saturday from Valparaiso, evidently to reinforce the Affairante Cochrane now lying there, Chile's most powerful vessel. The purpose is taken to be to blockade the Straits of Magellan and prevent passage of our ships to the west coast. CALVIN'S CREED. rogress of Revision of the Presbyte

New York, Jan. 18 .- [By the Asso ciated Press] The Presbyterian Gen-eral Assembly Committee on Revision of Faith today took up the doctrine of infant damnation, which is entirely eliminated by the adoption of a substi tute for chapter 12, section 4, which now reads: "Infants dying in infancy and all other persons who are not guilty of transgression are included in the election of grace and are saved and regenerated by Christ through the Spirit who worketh when and where and how he pleaseth. So also are all other elected persons who are not outwardly called by the baptistry of the

No change is made in section 4 save the striking out of the word "they" in the third line. No change is made in chapters 4 and 16. The seventh chapter of section 18 is made to read as follows: "Works done by unregenerate men, although they may be things men, although they may be things which God command and of good use both to themselves and others, and although the neglect of such things is awful and displeasing to God, yet be-cause they proceed not from a heart purified by faith nor are done in a right manner to the word nor to the glory of God and do not meet the requirements of the divine law, hence they cannot be pleaded as a ground of acceptance with

The committee working on the section of chapter 4, which treats of predesti nation, brought in a report today.

After a vigorous discussion the following words were adopted to express the future doctrine of the Presbyterian Church: "The rest of mankind, God saw fit, according to the unsearchable counsel of His will, whereby He ex-tendeth or withholdeth mercy as He pleaseth, not to elect unto ete nal life and them bath He ordained to dishono and wrath for their sins, to the praise of His glorious justice. A Bill to Admit Utah.
Washington, Jan. 18.—Senato Teller today introduced a bill to admit Utah into the Union as a State. All persons qualified for representatives to the Legislative Assembly are made eligible by the bill to be elected to a convention to form a State constitution, which shall meet on the first Tuesday in October of 1892. The bill, after re-citing the usual provisions of the con-stitution to be adopted, further pro-vides that it shall secure perfect toleration of religious sentiment, and forbids the molestation of any person in the State in person or property on account of his mode of religious worship. All rights to public lands are to be dis-claimed by the State and November, 1892; is fixed as the date of ratifica-tion of the constitution by the people.

The Senator Faces His Assailants in the Courtroom. His Alleged Connection with Boodler

Bardsley Denied. Testimony as to That Note and Cer-

tificate of Deposit Out of Which the Democratic Press Tried to Make Capital.

BEAVER (Pa.,) Jan. 18.—[By the Asociated Press.] The Quay-Star criminal libel suit was begun this morning, and great interest is felt in its progress. The attorneys for the prosecution are District Attorney Mechlem, J. M. Buchanan and W. H. S. Thompson, the last two being prominent Democratic leaders, and J. Rankin Martin. Those for the defense are Dougherty, Robert Pitchie, chairman of the Democratic Committee, and Lewis Reed, all Democrats. A jury was secured this after poon and after adjournment there was some talk about its membership politi-cally. There is but one known Demo-crat and a majority of, the jurymen are active Republicans.

The District Attorney in opening the

case said that he expected to show that the certificate in question was used in payment of a legitimate loan which Senator Quay had made to the Republisenator Quay had made to the reepublican committee of Philadelphia; that the loan had been paid back in full, less a discount; that Quay had only a casual acquaintance with Bardsley and that the Star's article was false and mali-

clous. David Martin, ex-Collector of Internal Revenue of Philadelphia, testified that he had received from Senator Quay a personal note for \$9000 upon which to raise the balance of the \$10,000 needed for the campaign. The note was not discounted at the time, and Quay later gave him for the committee a check for \$9000 on deposit in the bank of Beaver. Bardsley identified the witness at the bank, and also got the note discounted, and gave witness a certificate of deposit for the proceeds, which he took to Washington and gave

which he took to Washington and gave to Senator Quay.

Senator Quay himself was called and corroborated the previous testimony. He said that in the campaign of 1889 the Philadelphia City Republican Committee needed \$10,000. He gave \$1000 and his note for \$9000. This was the same note referred to by the witnesses. As they failed to get it discounted, he gave the check for \$9000 mentioned. He told them he needed money for another purpose and that money for another purpose and that they must replace it with the proceeds of the note. The latter was not dis-counted until after the election, but a certificate of deposit was given him for the amount, and this he sent to the bank. The certificate was produced, and Quay said he would not like to swear to Quay said he would not like to swear to
the signature. He had learned that it
is not his signature. He added: "It is
a good imitation." Quay said he had
met Bardsley, but did not think he
would know him now.

The State's Attorney read from the
paper a portion of the article charging
that Our had shared in Bardsley's

that Quay had shared in Bardsley's steal, and pronounced the statement false. The Senator said he was unable to find the note he gave the Philadelphia Republicans. He had probably destroyed it when it was returned to him. Replying to questions of the defense, he said that the Philadelphia commit-

tee had frequently drawn on him and he expected them to do it again. In cross-examination, he said that he com-plained by telegraph to the Keystone Bank authorities when the certificate of Bank authorities when the certificate of deposit appeared, because it had been stolen, photographed and placarded all over the State. It was in trust in a United States bank and they had no right to show it. Receiver Yar

Receiver Yardley, of the Keystone Bank, identified the certificate and tes-tified that Quay's name did not appear in any other transaction of the bank.
Other witnesses testified in line with the foregoing facts. The State's At-torney read several editorials from the

Star referring to Quay, after which the prosecution rested its case.

Attorney Ritchie outlined the case for the defense, stating that they proposed to show that the publication of the ar-ticle was without malice. The electro-type plate of the certificate was re-ceived from the chairman of the Democratic State Central Committee. Adjourned until tomorrow.

NEW ORLEANS, Jan. 18.—[By the Asociated Press.] The Times-Democrat's Laredo special says: "It is earned from private sources that Garza and five or six followers have been located at a point called Loma Prieto, on the line of Encinal and Duval counties, and if the authorities get down to business they can capture

BROWNSVILLE (Tex.,) Jan. 18.—Capt. Brito, with a company of Rangers, returned last night, having been thirteen days scouting on the river bank between Santa Maria and Rio Grande city. He thinks Garza's band is broken up, as so many troops are in the field and provisions so scarce.

NASHVILLE (Tenn.,) Jan. 18 .- The situation among the miners is quiet. Many sensational dispatches sent out from Coal Creek and other points upon investigation are found to have no foundation. No trouble is expected for the present at least.

Powder Mills Explode-Several Men In-

CATTLETTSBURG (Ky.,) Jan. 18.—[By the Associated Press.] The powder mills of Central City, exploded this morning with terrific force. The sound was heard in Ironton, twenty-five miles away. Windows glass was broken in Cattlettsburg. Five men were killed and six injured This was the third explosion at the Phœnik mill in three months and the most destructive. The cause will never be known, as all the workmen in the mill were killed. It is ascertained that the first explosion was in the glazing mill, where there were ten tons of powder. Successively the packing house der. Successively the packing house, magazine, four wheel mills and a car loaded with gunpowder went hurling into flery fragments through the air. Not a vestige of the entire plant remains and the country for half a mile around is strewn with fragments of the buildings and the bodies of the five men, the victims of the disaster. It is not known definitely, but at the present writing it is believed that no less than thirty tons of powder were burned in the several explosions. The killed are:

Archie Livingston, a Scotchman, su-perintendent of the mills. Only his hand was found. Ed Winton, architect and engineer, who built the works.

John Benton and John Schlosser and Charles Scott, workmen.
Robert Cook, a glazing mill hand, was mortally injured.

The seriously injured are: Reece, Estep and John Justice. Many others were slightly injured.

Duke Clarence's Funeral,
LONDON, Jan. 18.—[By Cable and Acsociated Press.] The arrangements made for a public and semi-military procession through London to escort the remains of the Duke of Clarence from the Great Eastern to the South western Railway station has been changed in consequence of the general epidemic of influenza prevailing here. Upon hearing the views of the authoripronounced the statement ties, who made no concealment of their fears that exposure of the troops would probably result in a general attack of influenza, the Prince of Wales immediately gave orders that the projected military funeral should be abandoned. The Prince of Wales is showing the greatest solicitude hat members of the court should not be exposed to the unecessary risk which a procession.

> would be certain to seriously affect the health of many aged courtiers. It is deemed that the health of Prince George of Wales is not sufficiently ro-bust to allow of his exposing himself in any way and the Prince of Wales has decided that he will not be allowed to

necessary risk which a procession through London would entail and which

attend his brother's funeral. DUBLIN, Jan. 18.—At a special meeting of the city corporation today a resolution was adopted condoling with the royal family over the death of the Duke

Ploneers in Chicago Celebrate. CHICAGO, Jan. 18.—The Western Association of California Pioneers this evening celebrated the forty-third annisary of the discovery of gold in Callfornia with a banquet. Previous to the banquet officers were elected. Charles P. Jackson, now absent in Europe, was unanimously reflected president. Vice-President Addison Ballard presided tonight. One notable feature was the absence of wines.

A Surprising Verdict.

DETROIT (Mich.,) Jan. 18-The trial of Billy Considers, considered the chief conspirator in the celebrated Perrien abduction case, terminated this evening with a verdict of not guilty. This was a great surprise to the public. VISITING PRESS DELEGATE.

The Committee Meeting With Good Suc-cess in Securing Subscription.

As the time approaches for the ar-rival of the delegates of the International League of Press Clubs in Los Angeles her citizens arouse to the importance of providing entertainment such as the occasion warrants. The Committee on Collection worked faithfully yesterday and at the meeting of the Reception Committee, which was held at 2 p.m. in Gen. McCook's office, reported satisfactory progress, over \$1000 having been raised. As this is but two-thirds of the sum required to entertain the guests there is ample op-portunity for others to come forward with their contributions. No pains or expense will be spared to make the ban-quet at the Hotel Redondo a magnifi-cent affair. Gen. McCook and Dan Freeman are giving this matter co-sid-erable attention and with two such famous connoisseurs at the head it cannot fail to be a success. The list of Los Angeles guests invited to attend the banquet will be necessarily limited and

banquet will be necessarily limited and will probably include those who have shown an interest in entertaining the guests.

Any persons having carriages to place at the disposal of the committee are requested to report at once to C. D. Willard, secretary of the hamber of Commerce. The Committee on Reception hold another meeting today at 10 a m. hold another meeting today at 10 a.m. THE SUBSCRIBERS.

The following citizens have subscribed the amount of \$12.50 each, being the amount fixed by the committee, whereby the subscriber is entitled to whereby the subscriber is entitled to participate in the banquet at Redondo Tuesday evening, the amount being fixed at this sum to enable the committee to have the necessary fund to entertain the guests—these being over 100 in number.

A large number of the following subscribers subscribed for sums in excess

This system of practice is effectual in the cure of Cetarth. Throat diseases, Bronchits Ashtma and Consumption.

The earlier symptoms of consumption contains in a weariness at times or a d-position to remain passive, a peculiar sensitiveness to the effects of cold: also breathlessness upon moving or ascending a hill or stairs: a sight hacking cough, with or without extent of the contains a sight hacking cough, with or without extent or back or under the shoulder blades. These symptoms are more noticeable toward or in the night; slight fever in the afternoon. Cold feet and hands, and in many cases a bue lividity of the lips and roots of the finger nails.

It is unnecessary to give the symptoms in the more advanced stages of con-umption, as there is scarcely a family in our State wherein its rayages have not been felt to a greater or less degree, and while this is true, it is no less true that had those persons who became the easy victims to this foul destroyer during the early stages of their disease partaken of the benefits to be derived from using the Aerean system of practice, nine-tenths of them might have been permanently cured, and while our cil mate is probably equal, if not superior to any climate in the world, yet all will agree that something more heroic is required to sill and destroy the living germs found so minerously in this disease—for all scientific, intelligent and thinking people concede the fact that consumption does arise from a living germ found distributed along the disease distance of the bronchial tubes and ungs, which nothing will kill or destroy equal to the Medicated Inhalations, when properly applied.

Persons taking this treatment can use the remed es at home as well as at our office.

I have seen so many of these cases cured that I do not consider any case hopeless until both lungs are seriously involved. Even them the inhalations add us in dissoiving the mucus and in contracting and healing the same

RAISE ... Some Lemons.

NOWING ones predict that lemons are the coming crop. So as to be in the swim and in position to eatch the wind when it comes, secure so ne of the East Whittier tract and put it out in lemons and when others are reading rich rewards in the lemon 1 ne you'll be with them on the flood tide to fortune. Experts have pronounced the East Whittier Tract especially adapted to this crop. Rich deep soil, warm south and southeast frontage, with the Puente Hill on the no th and northeast; practically frostless, one can raise all kinds of vegetables and small fruits the year round between the rows while the trees are growing. The lemon trees begin bearing the third year. We don't ask you to take our word for it, but come and examine. We can show you 3-year Eureka lemon trees loaded with finest fruit; orange trees not yet 3 years out with more than a box of fine nave's now hanging on a single tree. If such results can be shewn with no water, what may be expected with plenty of fine soft water?

No Sage Brush, Stones, or Cactus to clear away.

But the ground has been cultivated for years and only needs plowing and harrowing to put it in good shape for trees. Bear in mind that money invested now in any good acreage in any good location is better than mortgage security at 10 per cent and in choice localities of which

EAST WHITTIER

Is the choicest. The advance will be something wonderful as now with plenty of water nothing will check its growth. Prices for the present, \$200 per acre with water. We cannot promise it will be the same after the holdays. Choice selections are still to be had; secure them while you can. Make your wife a Christmas present of 5, 10 or 20 acres of the East Whittier Tract; set it out in oranges or lemons or any other trees and each Christmas you'll congraturate yourself on your wise choice and fortunate purchase. Come and see the lands and they will please you, or write to

Work Ordered.

Every ward was represented at the egular meeting of the Council yesterday morning, and there was an unusually large attendance in the lobby of the Council chamber when Clerk Luckenbach called the roll at the usual hour.

After the usual preliminaries had been disposed of the Council proceeded with its regular routine businesss in the following order:

REPORTS OF OFFICERS.

The City Clerk reported that on July last he had advertised for bids for the improvement of Eighteenth street from Toberman to Bush streets, but that no bids had been received therefor. Upon motion of Councilman Rhodes the Clerk was instructed to readvertise for proposals.

The same official also reported that

on October 12 last he had advertised for bids for the improvement of Lakeshore avenue between First street and Bellevue avenue, but that no bids had been received and the matter had been referred to the member from the Sec-ond Ward, but that no action had been taken since that time. Upon motion of Councilman Innes the incidental ex-penses incurred up to the present time were ordered paid by the city and the

matter was then dropped.

The report of the City Treasurer, showing the transactions of his office during the month of December last past, was referred to the City Auditor.

of \$5000, with M. M. Gillespie and E. P. Johnson as sureties thereon, were read, approved and referred to the Mayor for signature.

Upon motion of Councilman Summerland the City Attorney was requested to inform the Council as to the reasons for the non-removal of the obstruction on the northwest corner of Vine and First streets. Councilman Summerland also moved

that a wooden crosswalk be placed at the west line of New Main street at its intersection with Ann street, which motion was referred to the Board of Public Works.
The report of the Finance Committee

On motion of Councilman Nickell the Street Superintendent was directed to allow the people to connect with the Downey avenue sewer.

THE REES-BUTCHINSON MATTER. The special committee to whom had been referred the matter of the Herald's interview with Street Superintendent interview with Street Superintendent Hutchinson, reflecting upon some member of the Council, reported as follows:
Your committee, to whom was referred the investigation of the report that some Councilman had received \$5 per month, begs leave to say that an investigation showed an absolute absence of any information whatever, and the committee respectfully asks to be discharged."

THE BOYLE HEIGHTS FARK.

The City Attorney's report was read and disposed of as follows:

I have prepared and herewith present deeds from William H. Workman, donating 11.942 acres and from Mrs. Hollenbeck, donating 7.785 acres of land for a park in Boyle Helghts. I have been informed by Mr. Workman that his-portion is mortgage are such that the conditions of the mortgage are such that the portion donated for park purposes will be released upon being accepted as a public park. I present also a deed from Mrs. Hollenbeck of a strip of land for St. Louis street.

Councilman Tufts asked that the deeds be read, and after this had been done said that he did not desire to see the council slip up on this thing. Mr. Workman wanted the city to grade all the street saround the new years. and disposed of as follows:

I have prepared and herewith present deeds from William H. Workman, donating 11.942 acres, and from Mrs. Hollenbeck, donating 7.785 acres of land for a park in Boyle Heights. I have been informed by Mr. Workman that his portion is mortgaged, but that the conditions of the mortgage are such that the portion donated for park purposes will be released upon being accepted as a public park. said that he did not desire to see the Council slip up on this thing. Mr. Workman wanted the city to grade all the streets around the new park. He thought the city should only have to grade and pave half of the streets adjoining the park and not that next to the private property across the way.

Councilman Nickell said that there was another thing he desired to see

Concilman Nickell said that there was another thing he desired to see stricken from the Workman deed. It provided that the city should expend a certain amount of money in improving the park for the first two years. Now the city had no control over the expenditure of money in the parks, and even should the city. the parks, and even should the city spend \$5000 this year, and did not do so next year, the property would revert to the grantor.
Councilman Rees said that it had been

Councilman Rees said that it had been understood between the city and the donors of this property that \$5000 should be spent upon the park this year and \$5000 next year. It is a condition upon which the land is presented. It is natural that these people donating this park want to see it improved. He would be glad if the donors of the park would not insist on this provision.

would be glad if the donors of the park would not insist on this provision.

Councilman McGarry did not think it would be proper for this Council to go beyond the period of their existence as to spending money. He thought it was all right to spend one \$5000, but not to undertake to spend the second \$5000.

Councilman Nickell seized upon this argument and by it attempted to show

The Scientific American, after a most careful examination of the Official Reports, says: "The showing Cleveland's makes, compared with all the principal brands, is such as to put it emphatically at the head."

Councilman Rees said that although this Council would be out of power when the second \$5000 will be spent, it would in August prepare for this expenditure in the regular tax levy for parks. The fact so strenuously urged here that the spending of money on parks is out of the hands of the Council makes it necessary that the donors should place such a condition in the deed.

After some further discussion Councilman Tufts moved that the Workman deed be referred back to the grantor for amendment, so as to compel the city to grade half of the streets only, leaving it to the property owners to grade the other half.

Councilman Rees moved to amend by adding that both deeds be referred back, so that the clause relating to the expenditure of \$5000 for two years be stricken out. Mas. Martin, M. C., from Texas, who was extensively advertised as "the man who blew out the gas," has saved \$17,-500 in four years out of an aggregate salary of \$20,000 and mileage. So long as his savings come within the aggregate of his salary, however, his methods of economy are not a legitimate subject of public inquiry. Some officials have been known to save a good deal more than their salaries.

THERE seems to be a disposition to get up something of a scare about the probability of San Francisco being bombarded in the event of a war with Chile. There is no danger. Chile will need all of her navy for the protection of her own ports, and then she would not have enough vessels. The idea of a ship of war being sent off upon such a distant mission as the bombardment of San Francisco would involve is preposter-

W. R. Morrison, the oldest member of the Interstate Commerce Commission, does not like the ruling of the Supreme Court in the Counselman case, but he is not discouraged. If both parties to a violation of the interstate act cannot be punished he is willing to compromise on one, and favors an amendment by Congress granting immunity to a witness whose testimony may criminate himself. As the penalties of the interstate act are directed mainly against violations by railroads, such a compromise would not impair the value of the law to any great degree. But, be that as it may, the amendment must be enacted or the law will be a dead letter.

Some inquisitive people who are always asking triangular questions want to know why the Reform School trustees found it necessary to send a lawyer along with its commission which visited the East to obtain information about reform institutions. The superintendent, a trustee or the architect might have found something to make a note of in such a trip, but where did the lawver fit in? The only evidence of Lawyer Damron's efficiency which remains is that, while on the junket, he evolved that beautiful and intricate thing known as "a fifty-dollar personal toilet." If he learned any lesson in the philosophy of crime or the ethics of penology it was not made manifest in his subsequent career. Perhaps the real inward fact of the matter was that Lawyer Damron had such a "pull" on the trustees through former transactions that they could not well refuse him a trip at the State's expense when the others were going off to have a good time. It was a question of personal expedience rather than one of public utility.

Patience With Boodlers GARVANZA, Jan. 17, 1892. - [To the ditor of the TIMES.] The impres-Editor of sion that the Americans are as impetuous and hasty people is no doubt, in a great measure false, if w judge by the patience and calmness which they have displayed in dealing and bearing with the boodlers of this State.

While thoroughly cognizant of the fac that crooked practices were in vogue in ou that crooked practices were in vogue in our legislative halls we still curbed our passions and trusted to the purity of our courts to see that the evils should be ferreted out and that the offenders should me made to disgorge and suffer for their ill-gotten valus. of technicalities drawn out, perhaps, by the same "fine Italian hand."

Right here at home we have allowed ourselves to be robbed and disgraced by a few party leaders whom no one had the courage to arraign or to defy. And we have had their acts sanctioned by the majority of a jury (can we say "of our peers?") whose duty it was to indict all abusers of public trust. How long, oh, fellow-citizens, mustithis be borne?

This is a government of the people, by the people: pray let us henceforth see to it that it shall be for the people, and not for a gang of boodlers.

Los Angeles, Jan. 17 .- To the Editor of THE TIMES. I was much pleased with Superintendent Lindley's report given behis breast and, being unable to extricate ore the teachers' convention at Riverside an account of which I read not long since n THE TIMES.

eartily agreed with him that the wa to reform those boys is to treat them well so well, in fact, that they will have no desire to run away; but well fed, well clothed and given a fair start in their previously uphill race for life, they will in most cases gladly embrace the opportunity to becomrespectable citizens of this grand Re

Let them have meat three times a day, and see to it that the quality is good. Those growing boys need it, and it is a well-established fact that "bad dinners go hand in hand with total depravity, while a well-fed man is already half saved." The majority of the feminine portion of humanity are well aware what an important factor in a man's salvation is a well-filled stomach; so by all means let the boys have plenty to cat and of good quality. The days of the "Dotheboys" order of schools are, I hope, forever past, but as I have read the later developments in regard to the Reform School it has been borne in upon me that those trustees were, Gailleo-like, born some hundreds of years too soon. The world is not yet reasy for the corkscrew, finger-bowl and yelvet. Let them have meat three times a day the corkscrew, finger-bowl and velve method of reform, and while thinking over it struck me that this glori of which we are so proud, has been guilt

of showing partiality.

At the corner of Yale and Alpine streets in this city stands an edifice known as the Orphans' Home. The yard is small, the Orphans' Home. The yard is small, the surroundings unattractive. Inside many of the rooms are almost destitute of furniture and, though neat and well kept, are desplate and uninviting. I doubt if there is an antique sideboard in the establishment nor yet a punch bowl or lemonady set. I do not think there are any wain folding beds or \$9 blankets. I am quite positive there are no linen sheets or operachairs. There are some long, hard, wooden benches, though, and they consider themselves tucky to have those. There is a paucity of carpets. The poor little orphans do not tread upon "veivet."

Now I rise to inquire why this unjust discrimination? Why will the State allow such magnificent furniture in one of its establishments and none in another, especially when the only crime the poor little orphans have committed is the fact that

crimination. Why will the State allow such magnificent furniture in one of its establishments and none in another, especially when the only crime the poor little orphans have committed is the fact that nature has deprived them of one or both parents and left them destitute and alone, while the embryo criminals of the Reform School in many instances come from well-to-do families, who are well able to care for them, and are in some cases responsible for their children's criminal proclivities.

I puzzled over this a good while and finally arrived at the conclusion that the original trustees of the Orphans' Honie were not "built" on the same luxurious plan as were those of the Reform School. It must be apparent to the most casual observed that the last named gentlemen have been raised in the lap of luxury; that they consider such furnishings a necessity of one's being; though, truth to tell. I have heard that there was a time when the R——, but that's another story.

One thing I cannot understand and that

is the incongruity between the prices paid for things. Did the honorable board intend to purgue the plan in vogue at Polsom. In which the worst behaved, and least industrious ones are feed at the worst table?

Did they intend that the incorrigibles should be compelled to use those tin spoons (at 8½ cents per dozen,) those 75 cents per dozen, plates, and sit upon those 65-cent chairs, and when their ronduct justified, should, be promoted to the \$80 extension table, sit in those \$15 chairs, eat from that \$60 decorated dinner set, with those \$15 knives (i see no forks mentioned. Possibly those "personal toilet" gentlemen did not consider them a necessity;) be helped with those \$15 carving sots and \$16 salad knives and forks, have their food carried in on that \$9.50 tray; and their plebelan crums brashed up with that \$10 crumb pan and scraper; If so, I repeat that those reformers were born too soon. The country in general is neither ready nor able to

Inow propose that a place be found upon that costly "corner-stone" beside those illustrious names for a copy of some of the principal items of expenditure for which they are responsible. Truly, "Twere safer not to carve a man's name in stone till after he is dead."

sater not to carve a man's name in some in state till after he is dead."

I think it an excellent suggestion to have the State at once proceed to erect a reform school for the reformers. See to it that they sit upon wooden chairs (cost 65 cents per chair;) sleep upon iron bedsteads at \$12 apiece; supply them liberally with in spoons; by all means fer them have meat three times a day, but let there be a dearth of punch bowls and corkscrews. Let the "personal tollet" apparatus consist of a stationary washstand and etceteras, including a tin-backed horn comb attached thereto by a very stout string. Give them pienty of exercise, of other than their money-getting faculties, and they may yet make useful as well as ornamental citizens.

Awaiting a solution of the mystery, I remain, Yours sincerely,

AN EXPERT OLD THIEF.

He Stole Everything—A House Full of Plunder.

STOCKTON, Jan. 18 .- [By the Associated Press. | On Saturday last an old nan was arrested for stealing wheat, but he pleaded that he was moving it On examination it was learned that his name was Frame. The police found his house of four rooms filled with all kinds of goods. He said he bought every thing, and as he had a deposit of \$13. 000 in a San Francisco bank the officers decided to make inquiries before arresting him. He worked all night carting the stuff out of the house and left here Sunday morning with two trunks filled with plunder. He was picked up in San Francisco by a police officer on the statement made by a Stocktonian, who said he had stolen

goods in his possession.

Chief Crowley telegraphed that he had Frame, but an answer was returned yesterday that he was not wanted. But he is wanted today, for about fifty claimants have appealed for lost articles which the police recovered from Frame's storehouse. The old man had articles which were stolen three years ago, and men who employed him to do odd jobs identified property which he had carried away.

From the extensive assortment of

stuff it is apparent that he stole anything moveable. Among the stuff recovered are provisions, clothing, tools of all kinds, pistols, blankets, shoes, siedge-hammers, vallises, washtubs, saws, paint, chickens, coal-oil, plug tobacco, fish, crowbars, brackets, leather and rags. The police head-quarters looks like a junk shop.

Speed Tests of the Pacific Mail Steamer City of New York. SAN FRANCISCO, Jan. 18 .- By the Asociated Press. | The Pacific teamship City of New York, which left here Friday last for Panama, was given four-hour test of speed to fix her rating under the new mail subsidy chedule. Capt. Louis Kempff of the Naval Board of Inspection was on the vessel, and the data returned will also be of some service in the event that the conversion of the steamer into an armed cruiser becomes necessary. The trial was made between Pigeon Point and Point Sur.* The engines worked smoothly, making sixty-five revolutions to the minute. The average speed of fifteen knots an hour was made during the four-hour run, which exceeds the four-teen-knot requirement necessary to place a 2500-ton vessel in the 'third class under the new mail schedule. At the conclusion of the trial the official timers were landed at Monterey, whence they have returned to this city. The steamer proceeded on her way to

Owing to celay in the arrival of some officers of the club the dogs to run in the Derby were not drawn until this morning, which delayed the opening trials several hours. The first brace put down were Kerckhoff's black, white and tan setter, Sam K. Gladstone, and Linville's black, white and tan set ter Dottle Day. The birds were wild and moved in large coveys and sought willow thickets where the dogs could not be seen much of the time. Both not be seen much of the time. Both are very fast and pretty workers. In more open ground better work was done, and several good points made. Of these Gladstone got three and Dottie two, other qualities being about equal. The former won. The dogs were down 1 hour, 10 minutes. Sam Gladstone was handled by D. M. Waters and Dottie by William Demotte.

The third brace were J. M. Barney's pointer Ottilie and T. J. Walson's setter, Alice Gladstone, the former handled by Allender and the latter by Demotte. This was a very speedy pair; in fact, all dogs thus far had shown more speed than nose, causing them to dash in among birds that should have been scented and pointed. Fewer points were made than in the former heats. were made than in the former but Alice had the best of it after ing 40 minutes, and was awarded the

The fourth pair were T. J. Walson's setter Starlight and Charles Studarus' pointer Rush Croxteth, the former handled by Demotte and the latter by its owner. Starlight was a fast and beautiful worker, quartering the ground nicely, while the pointer was slow and lacking in style. It looked as if the lacking in style. It looked as if the surprise of all, he found and pointed bird after bird, while the setter was dashing about through the cover like a blue streak, but doing nothing, except to make one point and a back rush on one of his points. The dogs were down

half an hour.

This ended the first series of the Derby. Tomorrow the winners of to-day will go against one another in the second and third series over the same grounds.

THE COURTS.

The Barclay-Severance Suit De cided by Judge Van Dyke.

The Law of Contracts jet Forth Considerable Length.

Debarred in the Federal Court by Judge Ross.

judge Van Dyke rendered his decision n the case of H. A. Barclay et al. vs. aroline Severance et al., yesterday, rdering findings and judgment for the efendants in accordance with a engthy opinion filed therein. In this

engthy opinion filed therein. In this ipinion the Court says:

This is an action for commissions alleged o have been earned by the plaintiffs in pursuance of a contract alleged to have been made by the defendants with them for the sale of about 7000 acres of land, part of the Rancho Muscupiabe. In San Bernardino cousty belonging to defendants.

There were negotiations and correspondence and talks between the parties during the summer of 1883 in relation to the matter. but the first definite contract on the subject was entered into in November. 1883, and that contract is formed by way of a proposition contained in a letter on the part of defendants through M. S. Severance, which was accepted in writing on the part of defendants through M. S. Severance, which was accepted in writing on the part of plaintiffs. (Here follows the correspondence, consisting of some twenty-three pages of type-written matter.)

From this, says the Court, it appears very clearly that at the time the plaintiffs, or Mr. Wilson, who acted for them mainly, did not understand that the defendants had so modded their contract of November 23, 1883, as to give a conveyance free of lawsuits and unclouded, as now claimed; and themselves and agree to take the whole amount of land to be sold; in other words, that the proposed, sale with the syndicate never was in a shape to be fully carried out.

On the trial of the cause plaintiffs,

never was in a shape to be fully carried out.

On the trial of the cause plaintiffs, through their counsel, produced the code or statute of Utah showing that the provision of law, generally termed the statute of frauds, in that Territory does not include the requirement, as it does in this State, that an agreement authorising or employing an agent or broker to purchase or sell real estate for a compensation or commission should be in writing; but there was nothing to show, and probably it could not be shown, that the law of Utah prevented parties from entering into a written contract, even where by the law a contract was not ahown that the rules of law in reference to written contracts, their alteration or interpretation, in the Territory of Utah, were any different from the law in reference to the same matters in this State, and in the absence of proof that the law of the Territory of Utah in these respects is different from the law of this State, the presumption is that the law is the same. (Norris vs. Harris, 15 Cal. 220; Hickman vs. Alpaugh. 21 Cal. 225; Hill vs. Griggsby, 32 Cal. 60; Masters vs. Lash, 61 Cal. 622, and the citations in the opinion of the court in the last case on page 624.)

21 Cal. 225; Hill vs. Griggsby, 32 Cal. 66; Masters vs. Lash, 61 Cal. 622, and the citations in the opinion of the court in the last case on page 624.)

As has already been seen the parties to the action entered into a written contract, to-wit, the contract of November 23, 1883, and such contract is subject to the following rules of law: "The execution of a contract in writing, whether the law requires it to be written or not, supercedes all the oral negotiations or stipulations concerning its matter which precede or accompany the execution of the instrument" (C. C. 1625.) "A contract is to be interpreted according to the law and usage of the place where it is to be performed" (C. C. 1648.)

The contract in question, although executed in Salt Lake. Utah. was to be performed in this State. "A contract in writing may be altered by a contract in writing or by an executed oral agreement, and not otherwise." (C. C. 1698.) "An executed contract is one the object of which is fully performed; all others are executory." (C. C. 1664.) The question, however, of the construction or interpretation of the contract of November 23, 1883, is not raised, inasmuch as it seems to be so expicit and definite as not to be misunder stood, but the only point made on the plaintiffs is that it was modified. On this question we have already shown that, even if permissable to modify a written contract by parol, the preponderance of testimony is not with the plaintiffs. The law, however, does not allow a written contract to be so modified.

The plaintiffs' counsel say in their very

mony is not with the plaintiffs. The law, however, does not allow a written contract to be so modified.

The plaintiffs counsel say in their very able argument on the subject that years of labor and many thousand dollars expended by plaintiffs for defendants, as shown by the testimony in the case, without a dollar of remuneration having been received, should entitle them to a recovery unless there is some principle of law that prevents it. I have fully considered the claim here made, and if the question were one of quantum meruit instead of being, founded upon an express contract the lappeal would be entitled to consideration, but the difficulty is, as suggested by counsel in their appeal, that principles of law in this case, as already shown, prevent a recovery and the court is not permitted to make or alter contracts for parties nor to mold the law to suit a particular case. It might, however, in this connection be remarked that although the plaintiffs did expend a large amount of money and devote a great deal of time for the purpose of effecting a sale under the agreement, yet all this expenditure of money and loss of time on the part of plaintiffs resulted in no benefit to the defendants, as the whole business proved a failure.

Findings and judgment, therefore, must

Findings and judgment, therefore, must go for the defendants. WALTER VAN DYKE, Judge.

IN THE UNITED STATES COURT. yesterday morning Joseph D. Lynch and James J. Ayers, the proprietors of the Herald, appeared before Judge Ross for arraignment upon the charge of having recently deposited in the United States mail a copy of their paper containing a list of the drawings of the Louisiana lottery, the same being non-mailable matter. When called upon to plead thereto their counsel, A. B. DAMRON IS BARRED. Some time ago Judge Erskine M. Ross took occasion from the bench to remark that there were several persons practicing at the bar of this county who, on account of their misconduct and reputation, should not be permitted to rank with their professional brethren, and on that occasion the name of A. A. Montaño, which had been proposed for admission to practice in the United States courts, was at the suggestion of the Court withdrawn. It was generally understood by the members of the local bar, who are themselves to blame in a great measure for the fact that the objectionable members were not disbarred at the proper time, to whom Judge Ross that there were several persons practic at the proper time, to whom Judge Ross referred at that time, and there has been considerable curiosity on the part of some of the lawyers in this city as to whether or not, after this rebuke, the parties referred to would pre-sent themselves in the United States

Courts again.

Until yesterday Judge Ross had never again referred to this matter, nor had any attempt to test his feelings been made, but the crowd of attorneys in the United States District Court at 10:80

o'clock had the matter presented to them in unmistakeable terms. Among the cases on the calendar was that of the United States vs. Geronimo that of the United States vs. Geronimo Ortego, charged with having sold liquor to Indians. When called upon to plead the defendant announced that he had retained James M. Damron, Esq., as his counsel several days ago, but he was not present, nor had he advised the defendant as to his plea. Judge Ross, in his sternest tones, remarked: "Mr. Damron will not be permitted to practice in this court," and thereupon appointed J. H. Call. Esq., as counsel for the defendant, who, was allowed until Monday next to plead. until Monday next to plead.

IN PAVOR OF THE PLAINTIPP. Judge Van Dyke ordered a decree in favor of the plaintiff in the case of Booth vs. Biscailuz yesterday, in accord-Booth vs. Biscailuz yesterday, in accordance with the following brief opinion:
This is an action of foreclosure of a mortgage executed by the defendant Biscailuz. The main point raised on the part of the defense is that one Henry Ward should be made a party defendant. But it appears that his title was not obtained from Biscailuz, and is adverse to the title mortgaged. He is, therefore, not a proper party, as adverse titles cannot be litigated in such an action.

A big lot of cloaks came in by express. This is the third lot inside of three weeks: this is an indication that we are selling a very large number of cloaks. Our aim in the cloak department is to give better values, better styles and better treatment than you get elsewhere. We now have a special lot of about 300 cloaks, all new, and the prices are fully one-half less than early in the season. It is the clearing up of a lot of odds and ends of one of the largest manufacturers East and are offered at very low rates to make quick selling. It is the large number we sell at moderate profits that swells the sales to large proportions. If you want to buy a cloak you do yourself a great injustice if you don't look at this new line. It is not old goods we invite you to see, but the newest and choicest things in the city. We also wish to call your attention to a big lot of Reynolds Bros.' shoes, a regular \$4 quality; we offer a limited number of pairs at \$3 a pair. Reynolds Bros.' shoes are as good as any shoe ever sold in this market, and at present prices they are far superior to the average shoe. Reynolds Bros. make no cheap shoddy shoes; their goods are known everywhere as the very best, and at the new prices we are now selling them for they are remarkably cheap. We are increasing corset sales fully 50 per cent over last year. Royal Worcester corsets are becoming more generally known and when once they gain a foothold the sales will make a big jump upward. Try a Royal Worcester Corset, they cost from \$1 up and are the best you ever wore.

On fine wools the situation is not as strong owing to large importations of Australian wools and the slow movement of Ohio and Michigan wools. Texas and California wools are rather quiet. Pulled wools are in good demand, particularly A and B supers. for red.

The local courts of justice do not as

The Jocal courts of justice do not as a usual thing have much to do, but for the novelty of its lawsuits Pasadena stands unsurpassed and alone.

On Saturday, for instance, a case was tried before Justice Rose that possessed, like the Chinaman, some peculiar features. It was the resultof a neighborhood quarrel, the socation of the scene of action being on the east side of town, a short distance south of Colorado street and near the city limits. Mr. Perry was the complaining witness and Mr. Parker was the defendant. Mr. Perry recently planted a field to barley. Mr. Parker's chickens came to feed off the barley, whereupon Mr. Perry loaded his gun with beans, or some deadlier ammunition, and proceeded to aim the contents at the chickens. Mr. Parker scented the trouble from afar and appeared in the barley field while the slaughter of the chickens was in full blast. Being convinced that prompt action could alone prevent the complete annihilation of his fowls, he proceeded to thump Mr. Perry once or twice on the head. During the little pleasantry the butt end of Mr. Perry's gun collided with Mr. Parker's right eyebrow, inflicting thereon a slight wound. Mr. Perry, however, did not regard this as sufficient compensation for the bumps raised on his head by Mr. Parker, hence he had recourse to law. After the testimony was all in Mr. Parker was found guilty of the offense as charged, and was sentenced to pay a fine of \$5, which he did. A return action for firing a gun at chickens with homicidal intent is next. In order.

Washington's birtualy—the hear than all holiday—is fast approaching. It be hooves the people, therefore, to awaken to the importance of the occasion and arrange for some suitable form of entertainment for that day. It has been stated that the Lugo brothers contemplate giving a programme of races and an exhibition of fancy horsemanship. Such an exhibition would, without doubt, be well patronized, and it is to be hoped that the project will be carried out. The Tennis Club and the Athletic Club also contemplate giving special events on this occasion. Pasadenians are enthusiasts on the matter of outdoor sports. They enjoy good races, whether between athletes or horses, and are generally willing to pay to see them. This fact in connection with the foregoing remarks suggests the grand possibilities of a union, say between the Driving Park Association, the Athletic Club and the Valley Hunt. If these three organpossibilities of a union, say between the Driving Park Association, the Athletic Club and the Valley Hunt. If these three organizations would combine in the purchase or lease of some grounds suitable for racing and general athletic purposes they could be fitted up in first-class shape, and would in a fitted up in first-class shape, and would in a short time prove as great an advertisement to Pasadena as is the kite-shaped track for Stockton, while the clubs could otherwise preserve their Individuality and pursue the even tenor of their several ways undis-turbed. The consummation of such a mat-ter will undoubtedly necessitate consider-about.

Those who are skeptical with regard to the amount of good accomplished by the Charity Society should attend the annual meeting tonight and hear the facts submitted in the reports.

The defense was to the effect that there had never been a written contract providing for the payment of the commission fee claimed by Mr. Prosser, and W. E. Arthur, who represented the defendant, brought sumclent law to bear on the case to convince His Honor that Mr. Wood was not bound to pay the fee.

This being the proper interpretation of the law, real estate men had better see to it hereafter that all agreements in matters pertaining to commissions be made in writing and not be merely verbal.

The safe in the store of A. J. Arnold at

Saticoy was blown open early Sunday morning, and while the burglar was still rifling ts contents he was captured and is now in jail here awaiting examination. The de-tails of the affair are as follows: The man, who gives his name as Charles Kingsley. arrived on the train Saturday night and hung around the store until after it had closed. In the building is the postome. About 11 o'clock the man effected an en-trance from the rear and after cating a few About 11 o'clock the man effected an entrance from the rear and after eating a few crackers and some cheese attention was paid to a Hall safe in one corner. A. small hole was bored through the door and a charge of giant powder sinserted. A long fuse was then attached and Kingsley went out to await results. The result came in the shape of an explosion, and it not only blew the door off but awoke Capt. W. H. A. Thompson, who was sleeping in Arnold's residence in the rear of the store building. He got up in time to see the burglar reenter the store. Quickly dressing he soon aroused Mr. Arnold and they went down and opening the store walked in, and while the latter held a lamp Mr. Thompson carried a revolyer and a search was made for the man inside. The safe was seen to have been demoralised, and the man's shoes were next found close at hand, but not until the store had been searched all over was the burglar found. He was crouching down behind a counter, but on the command of Thompson he came out and stood up. A search revealed the fact, that he had taken a registered postofice money package containing \$98, \$20 in silver and some other articles. He had a full set of burgiar tools, but no arms of any kind.

a full set of burgiar tools, but no arms of any kind.

After making the arrest several persons were summoned and a guard set until Sheriff Reliev and his deputy arrived about 4 o'clock. The entrance was made about midnight and at 5 o'clock he was in jail. The man is about 30 years old and a very nice-looking person. He says he has been in the business for the past sixteen years and has worked Los Angeles, San Francisco, Ventura and other places, and then to be caught so easily in a little town like Saticoy "broke him all up."

Another meeting was held in San Dimas Saturday afternoon relative to the new irrigation district under the Wright law. Several of Pomona's citizens and property owners are interested in this project. It can hardly be said that the meeting was a success, as the leaders met with considerable opposition. The report of the surveyor of the leaders estimated the cost of bringing the water from the San Gabriel River through the mountains at about \$350,000. The opposition estimated it at \$500,000, while a surveyor from Los Angeles estimated it would cost \$1.000,000. A Woman Becomes Suddenly Insane Marriage of Judge R. A. Ling.

Mrs. Hattie Gordon, who was some months ago divorced from her husband, R. B. Gordon, was yesterday taken over town in custody and placed in the County Jail, pending an examination as to-her sanity. It appears that she had spent Sunday with the family of Attor-ney Shinn, on the West Side, and intended to stay all night. Sometime in the night, however, she got up, and, the night, however, she got up, and, donning a suit of mixed apparel, consisting of part of her own and Mrs. Shinn's clothing and Mr. Shinn's overcoat, set out for East Los Angeles. She made the trip all right and spent some time wandering about the fields near her home at the old Pritchard pl ce on Alta street, and narrowly escaped being set upon by Baron Rog-niat's big hounds and mastiff. Early yesterday morning Mrs. Shinn and Offi-cer Craig were out in search of her and she was found at her own place, she having lost or hidden the overcoat which she wore during the night ney. She showed no concern at being arrested and evidenced no realizing sense of her situation. It was there fore thought best to place her in safe-keeping till a board of physicians should decide as to her mental condition. decide as to ner mental condition.

This was done yesterday afternoon, and
the doctors gave it as their opinion
that her insanity was only temporary,
and that with proper treatment she will

recover her reason.

Judge R. A. Ling recently left for the East and it was given out that he had gone to Washington on business. It now transpires that he has really gone to Hartford, Ct., where slyly-issued cards announce his mairiage to take place on the 26th inst. The bride prospective is Miss Olmstead, sister of Fred Olmstead, who, with her parents, spent some months here a few winters ago, The cards also state that Mr. and Mrs. Ling will be "at home" at the Judge's residence on Mission Road on and after April 1.

STILL A MYSTERY.

That Nude Body Not Identified as Yet.

Another Investigation Made by Coroner Weldon Yesterday.

Further Evidence Discovered That the Man Was Undoubtedly Insane.

en Once After He Stripped Himsel When He Was Scratching About a House Like a Dog-Post Mortem Yesterday Afternoon.

The "nude man mystery" was not leared up yesterday, and unless he is dentified in the morgue today it is nore than possible that he will be puried as an unknown in the "potter's field," for no one could be found yes erday in the vicinity of Burbank where the body was discovered, who

ever saw him before. Early yesterday morning Coroner Weldon and Dr. Bryant drove out to make a further investigation, as the Coroner was notified after he left Mon day that the dead man's clothes had been found in a hole where he buried them when he started on his last race, after stripping himself as naked as the day he was born.

day he was born.

As was stated in The Times yesterday, the man's clothing was found in a hole or grave about four miles this side of where his body was found on the San Fernando road.

When the Coroner and Dr. Brayant reached the little grave they removed

reached the little grave they removed the clothing, but could not find the trousers or shoes, but his coat and hat and underclothes were in the grave, ann the man must have torn them

into strips after taking them off, for they were in that condition. The searching party soon after found another grave and on opening it they found his knife and a silver watch, but nothing else had been buried in the

About 200 yards from this last grave they found the man's blankets tied up in a bundle and on opening them they found a pair of trousers and some towels and underclothing.

There was not a paper of any kind in the clothing by which the man could be identified.

People of this class generally carry note-books, with all of kinds entries and their name and address, or the place from which they came, but this man had nothing of the kind in his clothing. The man was seen once after he stripped himself, but an effort was

not made to capture him, as the people who saw him took him for a spook or wild man and did not care to chase him through cactus patches.

wild man and did not care to chase him through cactus patches.

Late Saturday night a family who live in a little frame house near where he buried his clothes were awakened by him. After he stripped himself he went to the house and the woman who was awake heard what she believed to be a dog scratching or digging in the ground by the side of the house. The walls are very thin and she could hear every move he made. He crawled along by the side of the house, and every few feet he would stop and dig a hole. He seemed to be trying to get under the house. She knocked on the wall several times and tried to drive him away, but he paid no attention to her, and she was about to go to sleep her, and she was about to go to sleep when she was startled almost to death by hearing him say in broken English:
"I can't see it."

The woman was so badly frightened that she awakened her husband and told him that some kind of an animal that could talk was digging under their

house.

The man listened a few minutes, and as the scratching still kept up he jumped up and hurriedly put on his clothes, when he suddenly opened the door and dashed around the house, but he was not quick enough, for the man must have heard him dressing as he was some yards off when the door was opened and was running across the field at a terrible rate of speed.

He did not have a stitch of clothes on.

Juch held a post mortem on the remains at Orr & Sutch's, but the only injuries they could find on the body were quality of trimmed hats and toques offere the murderous pricks made by the cac-tus thorns which entered his flesh in a

housand places.

His lungs showed that he was suffering from pneumonia in the last stages and it is supposed that insanity was caused by la grippe and a high fever and in this state he stripped himself and started off on his crazy race.

The inquest will be held this morning in the undertaking rooms of Orr & Sutch.

RAILROAD AFFAIRS.

The Canyada People Can Hope for a Road.

Four Per Cent. Grade Can be Ru Through the Verdugo Canyon-General, Local and Personal

To those who think they know the to pography of the country through which the La Cañada people want the Ter-minal company to build a railroad into their fertile valley the scheme seems to be impracticable. The present terminus of the Glendale branch is at Verdugo, at the entrance to a canon which to unprofessional eyes appears to afford no chance for further railroad construction in that direction. But the ambitions of the La Cahada dwellers are not hopeless. Chief Engineer McClure of the Terminal Railroad Company says that a line could be run to that valley with grades not exceeding 200 feet to the mlle. This would be a feasible the mile. This would be a feasible route for light trains, but a 4 per cent. grade is too steep for heavy traile. It will cost money, however, to build through that cañon, and before a rail-coad company will consider such an enterprise it is likely, judging by known precedents, that some strong inducements must be held forth. The Cañada Vallen will be time produce much traf-Valley will in time produce much traf-fic, but the revenue from that source is prospective. The right-of-way is of-fered free, and now if some sort of were promised it might possibly

Thompson, agent for the Rock Island route in Los Angeles, stopped at San Francisco on his way to Chicago, the other day, and to a friend who inquired after his health he replied who inquired after his health he replied that he was all right except that he had been trying to take the grip. "Been trying to take the grip?" retorted his friend; "why. with your usual good luck you ought to have got the whole cable!" That San Francisco man knew Mr. Thompson.

Tomorrow the work of spreading the rails on the Glendale branch of the Terminal road to the standard gauge will be begun and pushed rapidly. When this is done the little engines and nar-row cars will be relegated to the past, and passengers can ride to Glendale without being joited out of their clothes.
